Control Products Adds to Suzhou Team

Minneapolis, Minnesota – January 6, 2010 Control Products, a trusted leader in electronic control technology, design and global manufacturing recently welcomed a number of new associates to its Suzhou, China facility. Experienced associates have been added to its Engineering, Information Technology, and Procurement departments. These additional resources have been strategically added to support our rapidly expanding business in Asia. This expansion provides additional value-added services for our global customers.

Currently, Control Products is involved in many projects that require the global collaboration between design engineering, manufacturing and procurement teams. Demand for this type of collaboration will continue to increase as North American companies strategically position themselves to take advantage of the growing and modernizing economy in China. According to Paul Carlson, President of Control Products, “We feel very comfortable with these new strategic implementations, as they will position our company to respond to the unique needs of our customers. Today, our customers are experiencing for themselves the increasing resource offerings from Control Products on a global scale.”

About Control Products
